YAGI ANTENNA 18 Dbi

Technical Specifications

Model No. YAGOD4G018

Frequency Range 698-960/1710-2700MHz

Beam Width 60±50
Polarization Vertical
Gain 18 DBI

Lightning Protection V Direct Ground

VSWR <1.5:1 Maximum Input Power 100 W

Impedance 50

Connector Type SMA M/N F/ Customized Operating Temp -40 to 55 C

Mounting Clamp Type / Pole Mount
Cable Length 300 MM / Customized

Cable RG58

Compliances CE compliant ROHS ROHS Compliant

FEATURES

- Wide Frequency Range
- Light Weight
- High gain
- Easy to Install
- Vertical or Horizontal Polarization
- All-Weather Operation
- Best for Outdoor applications.

YAGI ANTENNA 18 Dbi

The connections between elements and other components is secure and well-constructed to minimize losses and ensure stable performance over time.

The unique design of the yagi antenna feed which works as matching device to keep the VSWR low resulting in increased efficiency of the yagi with reflector.

The antenna is also be robust and reliable, with stable performance over time and in various environmental conditions.

A GSM Yagi antenna is a useful tool for improving the reliability and coverage of GSM networks, and can be used in a variety of applications.
